

PRESS RELEASE

Alles einfach.

Einfach alles.

Korntal-Münchingen (Germany), 25 August 2009

VBH's own brand greenteQ is now also offering flat strips and folding brackets

Window seals: A visually clean solution with greenteQ products

VBH is expanding its own brand in the area of plastic mouldings through a wider array of greenteQ products. Self-adhesive greenteQ flat strips and greenteQ folding brackets are now available for the convenient and efficient covering of window seals when installing plastic windows.

The plastic mouldings made of UV-resistant PVC are supplied in handy 50-metre rolls. It is thus possible to customise them to individual lengths, reducing waste. In addition, the polyethylene adhesive tape ensures clean and easy installation.

The flat strips are available in two different thicknesses of adhesive tape, each with six widths from 20 mm to 70 mm. A silicone soft lip completely covers the adhesive tape after affixing so that the greenteQ flat strip seals the window profile without leaving a shadow gap. In the case of a smooth subsurface, the strips may also be used outdoors.

The folding brackets are available in three sizes of 25 x 25 mm, 20 x 40 mm and 30 x 30 mm and are suitable for indoor and outdoor use. They bend in both directions and are thus flexibly customisable.

The product range of the greenteQ own brand is available at VBH or online at www.vbh24.de.
